Education

Aditya Engineering College

B.Tech in Computer Science (CGPA: 7.60)
Surampalem, Andhra Pradesh

Expected 2025

Technical Skills

Languages: C, C++, Java, Python, JavaScript, TypeScript, HTML, CSS

Frameworks: Bootstrap, Tailwind CSS, React.js, Node.js, Express.js,
TensorFlow, PyTorch, Scikit-learn

Databases: MySQL, MongoDB

Tools: Visual Studio Code, Postman, Git, GitHub

Others: UI/UX, Material UI, Dev UI, Wix Studio

Experience

Technical Hub, Java Trainee

Feb 2023 – June 2023

- Gained hands-on experience in Java programming, focusing on OOP principles and best practices.
- Developed **Cognimind**, a Java-based interactive game, enhancing problem-solving and logical thinking skills.
- Worked with Java frameworks to build scalable applications and improve coding proficiency.

Technical Hub, Full Stack Trainee

July 2023 – Nov 2023

- Acquired proficiency in both frontend and backend development using the MERN stack.
- Designed and implemented various dynamic projects, enhancing real-world application development skills.
- Collaborated in team-based environments to build responsive and interactive web applications.

Projects

Food Blog

Oct 2023

- Developed a dynamic and visually appealing food blogging platform that showcases global cuisines and renowned chefs.
- Implemented a user-friendly review system that provides instant personalized responses, enhancing user engagement.
- Integrated seamless backend support using MERN stack, ensuring efficient data handling and scalability.

Cinesphere (Movie Blog)

Jan 2024

- Built an immersive movie blog platform featuring the latest film releases, trailers, and in-depth reviews.
- Leveraged React.js to develop a highly responsive and engaging UI, enhancing user experience.
- Integrated MongoDB for real-time movie data retrieval and seamless content updates.

Farmers Touch Website

Sep 2024

- Engineered a comprehensive agricultural platform connecting farmers with consumers and agricultural services.
- Implemented AI-driven insights for personalized farming recommendations and market trend analysis.
- Developed a chatbot using NLP to provide real-time assistance to farmers, improving user accessibility.

Internship

Technical Hub - Data Structures Algorithms, Java Basics

- Strengthened problem-solving skills by implementing efficient data structures and algorithms.
- Gained hands-on experience in Java fundamentals, applying them to real-world software solutions.

Certifications

- **Google Cloud** - Digital Transformation with Google Cloud (Apr 2023)
- **Pearson** - Java Certification (Jun 2023)
- **Pearson** - HTML CSS Certification (Nov 2023)
- **IBM** - Python for Data Science (Dec 2023)
- **Pearson** - JavaScript Certification (Jan 2024)
- **The Linux Foundation** - Node.js Certification (May 2024)

Key Strengths

- Strong foundation in Full Stack Development
- Excellent problem-solving analytical skills
- Passionate about learning new technologies
- Effective team player leadership abilities
